

ROBERT J. GREEN

Independent Researcher | Melbourne, Florida, USA

robert@rjgreenresearch.org | www.rjgreenresearch.org | ORCID: 0009-0002-9097-1021

SSRN: ssrn.com/author=10825096 | GitHub: github.com/rjgreenresearch

Education

Master of Business Administration (MBA), Management

University of Central Florida, Orlando, FL | 2012–2014

Post-Baccalaureate Certificate, Computer Information Systems

Tulane University, New Orleans, LA | 1999–2000

Bachelor of Arts, Philosophy and Computer Science

University of West Florida, Pensacola, FL | 1994–1997

Air Defense Artillery Officer Basic Course (14D00)

U.S. Army Air Defense Artillery School, Fort Sill, OK | 1990

Officer Candidate School, Military and Strategic Leadership

Florida National Guard Military Academy | 1989–1990

Research Interests

Spatial econometrics; foreign direct investment screening; national security economics; regulatory economics; supply chain security; key person vulnerability and human capital concentration; compound risk and multi-domain fragility; aquifer depletion and irreversible resource economics; cost asymmetry in deterrence; weapons systems acquisition economics.

Publications

MTS Research Program — Working Papers and Pre-prints

The following nine papers constitute the Mutual Threshold Saturation (MTS) Research Programme (2025–2026), examining compound national security vulnerability across supply chain, human capital, economic fragility, regulatory perimeter, water security, and industrial capacity dimensions.

Green, R. J. (2026) *Spatial Clustering of Foreign Agricultural Acquisitions Near U.S. Military Installations: Comparative Evidence and Monte Carlo Hypothesis Testing*.

[Article 1] Land Use Policy. With editor. SSRN: doi.org/10.2139/ssrn.6454202

Green, R. J. (2026) *Through the Looking Glass: Ownership Concentration, Corporate Opacity, and the Three-System Visibility Gap in U.S. Foreign Agricultural Land Disclosure*.

[Article 2] Journal of Global Security Studies. Under consideration. SSRN: doi.org/10.2139/ssrn.6520499

Green, R. J. (2026) *The Regulatory Perimeter: Counterfactual CFIUS Jurisdiction, Distance Discontinuities, and the Patchwork Problem in Foreign Agricultural Land Oversight*.

[Article 3] Journal of International Economic Law. Preliminary review. SSRN: doi.org/10.2139/ssrn.6525938

Green, R. J. (2026) *Mapping Critical Supply Chain Dependencies: A Sector-by-Sector Analysis of Single-Source Vulnerabilities in the United States and Major Trading Partners.*

[Paper 4] Journal of Homeland Security and Emergency Management. Under review. SSRN: doi.org/10.2139/ssrn.6454618

Green, R. J. (2026) *The Irreplaceable Node: Key Person Concentration as a Compound National Security Vulnerability.*

[Paper 5] International Security. Submitted May 2026. SSRN: doi.org/10.2139/ssrn.6695998

Green, R. J. (2026) *The Cost Curve as Deterrent: Compound Warfare Economics, Saturation Dynamics, and the Structural Unaffordability of Great Power Conflict.*

[Paper 6] Defence and Peace Economics. Under SSRN review (PRELIMINARY_UPLOAD). SSRN: doi.org/10.2139/ssrn.6682203

Green, R. J. (2026) *Compound Economic Fragility: A Mutual Threshold Saturation Analysis of U.S. Domestic Resilience.*

[Paper 7] Journal of Post Keynesian Economics. Under review. SSRN: doi.org/10.2139/ssrn.6642278

Green, R. J. (2026) *Below the Threshold: Aquifer Depletion, Compound Agricultural Cascades, and the Econometrics of Irreversible Resource Loss.*

[Paper 8] Ecological Economics. With editor. SSRN: doi.org/10.2139/ssrn.6667841

Green, R. J. (2026) *Rebuilding America's Industrial Spine: A Policy White Paper on Compound Supply Chain Vulnerability and the Case for a CONUS Industrial Capacity Programme.*

[Policy Paper 9] Completed May 2026. Background document for congressional staffer briefing on CONUS Industrial Capacity Programme (CICP) national initiative.. SSRN: doi.org/10.2139/ssrn.6696139

Completed May 2026. Background document for congressional staffer briefing on CONUS Industrial Capacity Programme (CICP) national initiative.

Policy Publications

Green, R. J. (2026) *Everyone's Finger Is on the Trigger: Mutual Threshold Saturation and the Architecture of Global Economic Fragility.* Foreign Affairs. Submitted April 30, 2026.

Green, R. J. (2026) *[CFIUS and supply chain leverage]*. Lawfare. Under review.

Green, R. J. (2026) *[Defence-industrial implications of MTS]*. War on the Rocks. Under review.

Books

Green, R. J. (2026) *Digital Harvest.* The Silent Conquest Series, Book 1. [Forthcoming]

Green, R. J. *How to Get Started in Government Contracting.* Melbourne Business Advisors.

Green, R. J. *The Better Exit: A Guide to Strategic Exit Planning.* Melbourne Business Advisors.

Green, R. J. *The AI Enabled Nonprofit.* Melbourne Business Advisors.

Green, R. J. *The SBIR Advantage.* Melbourne Business Advisors.

Datasets and Code

Green, R. J. (2026) *Key Person Vulnerability Simulator (KPVS) v1.2.2*. Open-source software, Apache 2.0. github.com/rjgreenresearch/kpv-simulator. Companion to MTS Paper 5.

Green, R. J. (2026) *Cost-Asymmetry Simulator (CAS) v1.1.0*. Open-source software, Apache 2.0. github.com/rjgreenresearch/cost-asymmetry-simulator. Companion to MTS Paper 6.

Green, R. J. (2026) *Webb Analysis: Spatial clustering of foreign agricultural holdings near U.S. military installations*. Data sources: USDA AFIDA Detailed Holdings Data (2010–2024); NOAA County Geographic Reference Files. Companion to MTS Article 1.

Research in Progress

Green, R. J. *Ownership network and concentration analysis of Chinese-linked agricultural holdings*. Target: Journal of Global Security Studies. [MTS Article 2 extended version]

Green, R. J. *The Silent Conquest Series, Books 2–4: Digital Siege, Digital Shadow, Digital Reckoning*. [Novels; Book 2 in progress]

Green, R. J. *Congressional staffer briefing essay: The case for a CONUS Industrial Capacity Programme*. [5-page policy brief; background: MTS Policy Paper 9]

Green, R. J. *PhD dissertation prospectus in spatial econometrics / national security economics*. [Under development]

Professional Experience

Defence and Systems Engineering

Systems Engineering / Projects Leader | Knorr-Bremse Signaling, Melbourne, FL | 2024–Present

Systems engineering for Railway Positive Train Control (PTC); safety-critical systems; formal requirements management.

ICC Project Design Leader / Lead Systems Engineer | Alstom (now Knorr-Bremse), Melbourne, FL | 2010–2024

14.5 years leading complex railway systems integration for U.S. transit authorities. Requirements engineering, system architecture, FAT/SAT test execution, multi-stakeholder programme management.

Business Advisory and Nonprofit Leadership

Founder and Business Advisor | Melbourne Business Advisors, Melbourne, FL | 2017–Present

Strategic advisory for small businesses and nonprofits; government contracting; SBIR proposal development; exit planning.

Military Service

Commissioned Officer O-2 | Florida Army National Guard (Air Defense Artillery, 14D00) | 1989–1994

Officer Candidate School; Air Defense Artillery Officer Basic Course (U.S. Army, Fort Bliss, TX). Air defense systems, threat assessment, force protection.

Technical Skills

Quantitative Methods

Monte Carlo simulation (Python); spatial econometrics (Moran's I, Getis-Ord G_i^* , kernel density estimation, Monte Carlo permutation testing); time-series analysis (Granger causality, VAR, cointegration, ITS, RD design); stochastic modelling; index construction.

AI and Machine Learning

Reinforcement learning; hierarchical RL; cognitive architectures; natural language processing; supervised classification.

Systems Engineering

Requirements engineering; system architecture; safety-critical systems; Scrum/Agile project management.

Cloud and Infrastructure

AWS (Solutions Architect certified); secure document management systems.

Certifications

AWS Solutions Architect (Accredited Business Professional) | Scrum Master Certification | Certified Human Rights Educator

Professional Memberships and Service

Certified Human Rights Educator — Human Rights Education Training Program

weVenture Ignite360 Program — Volunteer mentor for veteran entrepreneurs
